

Minden Water Wells

...Water for Life...

Dear Customer,

Thank-you for choosing Minden Water Wells to drill for you! We are here to provide the best service possible. We want to schedule at your well drilling at your convenience. We will have someone come look at your location as soon as our scheduling and yours permit. At that time we would also like to have a drilling date scheduled.

Prior to the start of drilling, we will need these forms filled out. Enclosed is a Start Card, which needs your address, legal description of the property, and a signature. The Drilling permit needs filed prior to drilling if you are located in Idaho. The \$75.00 fee only applies to Idaho, also. The Drilling Contract just needs your signature. Please send these two forms back in the enclosed envelope, or fax to 208-267-1971. You may keep a copy if you wish. Please call me if you have any questions.

Once our crew has done a site inspection on your property, we will again discuss the drilling date with you, if we have not already. We will contact you the day prior to confirm you are ready for us.

The drilling site needs to be:

- * mostly level
- * cleared of trees and stumps, etc.
- * 30'x50' approx.
- * 30' from streams or rivers
- * 10' from property lines
- * 50' from septic tank or hard line
- * 100' from drain field
- * 100' from overhead power lines

Two working days prior to drilling you will need to contact the Digline at 800-342-1585.

Also remember that once the drilling is completed, we offer a full service line of pumps and installation, water softeners, water systems, and more. Let us know what you need!

Thank-you for your business
